Finding a place to live isn't easy

On top of advertising the SU's own accommodation service, I plan to introduce an accreditation scheme to make it easier for YOU to find decent affordable housing. By partnering with local estate agents, we may increase revenue for the SU whilst demanding the best from the housing market.

Freshers Fair is the BIGGEST event of the year

With YOUR help, we can also make it the best! Who do YOU want to see as the headlining acts? Which societies do YOU want to join? In partnership with the student groups, I hope to offer detailed information to YOU about all the groups *before* the fair

Let me entertain you!

If elected, I will spend the summer putting together a strategic plan outlining promotions, events and new programming to better suit our diverse student population. Some ideas so far:

- Movie nights! – I'll look into a cinema license for the new venue
- Diverse club nights – It doesn't have to be all about Cheese (as much as we love it!)

Get paid while getting the word out!

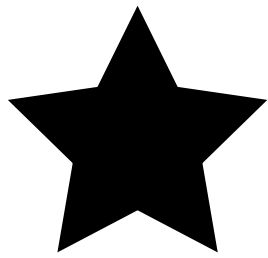

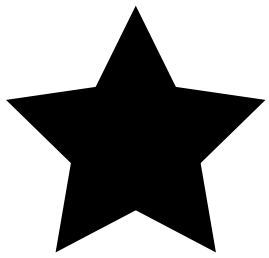

I plan to promote a ticket selling network for all Students' Union and local events. Not only would it increase awareness of the awesome events happening on campus, this would help create much needed jobs for our students.

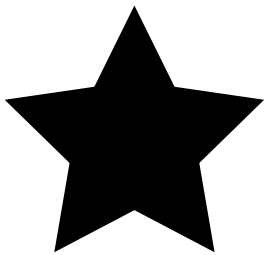

Better service for all

You DESERVE easy online access to services such as: room bookings, a map of the SU building, locations of essentials such as ATMs and safety bus timetables. I will ensure access to such information will also be freely available from the reception.

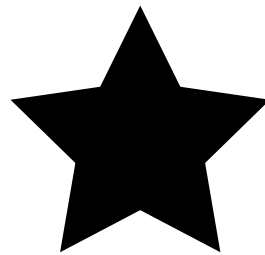

I will work towards better handicapped access and facilities. Safety is always a priority – I will look into increasing safety bus services and ensuring the timetables are displayed prominently around the SU.

Putting the SERVE
back in
SERVICES!!

Who cares about a long-term strategic plan and organizational structure review? I DO!

So that you don't have to. I will review the staffing structure and oversee a long-term strategy for the direction of the organization as a whole. You have invested millions into the students' union budget, and I pledge to ensure that it is being spent in the most effective and efficient ways.

It seems like everything is online these days.

So we should be too!

I will support web development and work with the very best to provide an online forum to discuss issues that concerns YOU the most.

Have stuff you don't use anymore or need additions to your lifestyle? Let's have an online marketplace for students to buy and sell used items!

Isn't it also time that online voting was simplified?

Understand YOUR SU

It is time you knew exactly what the SU does and who works for YOU.

I will work towards a more personalised experience for you whilst ensuring SU accountability and transparency.

MY INVOLVEMENT SO FAR:

- International Students Association (ISA) Committee 07/08/09/10
- International Student Helper 08/09/10
